TECHNICAL SKILLS

Front-End: JavaScript (ES5/ES6), React, Vue, jQuery, CSS, Bootstrap, HTML5, Vuex, React-Native

Back-End: Node.js, Express, MySQL, MongoDB, Mongoose, PostgreSQL

Testing: Jest, Enzyme, Mocha, Chai

Tools: Git, npm, Webpack, Babel, Trello, Docker, AWS, Heroku, Bit Bucket, Jira

Techniques: Agile Development, Service Oriented Architecture, Pair Programming, TDD, RESTful Design

Other: Fluent in both English and Spanish

SOFTWARE ENGINEERING APPLICATIONS

Calculator Service: Full-Stack Engineer | Node, Vue, Bootstrap, Passport.js, PostgreSQL, Sequelize, Docker, AWS
[[backend-repo](#)] [[frontend-repo](#)] [[deployed project](#) (username: admin password: 123)]

Secure calculator app, that persists users, records and services.

- Created both a User and Admin UI that allows users to request services (calculator operations) and allows Admin Users to Manage users balance, users records and services
- Created RESTful documented API using Node and PostgreSQL
- Used passport with JWT strategy to implement role-based authentication
- Implemented server-side pagination, filtering and sorting

Echo Park: Back-End Engineer | Node.js, React, Webpack, Babel, Postgres, Docker, AWS, Redis [[repo](#)]

Image carousel microservice and proxy server.

- Tested and compared PostgreSQL and MongoDB query speed with over 60 Million records in databases
- Created a redis caching layer that greatly enhanced response time by over 400%
- Implemented horizontal scaling by deploying service using docker on 5 AWS EC2 t-2 micro instances
- Launched an AWS load balancer and was able to handle 1000 requests per second

J-Stats: Full-Stack Engineer | Node, React, CSS, Webpack, Babel, Mysql, ChartJS [[repo](#)] [[deployed project](#)]

Chart based stat visualization app for Utah Jazz Players.

- Populated MySQL database using data from external API and additionally stored data in AWS S3 buckets.
- Designed beautifully responsive components using React
- Created two distinct CSS themes that can be toggled by user

EXPERIENCE

Full-Stack Software Engineer | Ascendant Anxiety | Remote-Contract |

July 2020 – Present

Please reach out to me to see project!

- Work as part of an Agile team in a ticketing-based workflow
- Build therapist platform web application using Vue, Vuex and other technologies
- Use creative problem solving to ensure a great experience for clients

Account Manager & Lead Photographer | Bell Photographers | Ogden UT

July 2016 – November 2019

- Handled any issues that arose with customer dissatisfaction
- Maintained close communication with production staff to ensure strict deadlines were met
